Safety Commitment

1. I am responsible for my safety and the safety of others.
2. I am committed to an incident and injury free workplace.
3. I acknowledge that people are fallible, and even the best make mistakes.
4. I will actively anticipate and communicate error-likely situations and failed defenses.
5. I will not perform or permit an unsafe act – I have the responsibility and authority to stop work.
6. I will encourage and reinforce the safe behavior of others.
7. I will make these commitments part of my everyday life at work and at home.

I am dedicated to maintaining a safe work environment and will demonstrate my commitment to safety through these actions.
