

Babcock & Wilcox Canada

Manufacturing Services

Manufacturing Services with an Industry Perspective

At Babcock & Wilcox Canada (B&W), our diversified manufacturing services base provides manufacturing and engineering support to a variety of industries. This allows us to create long-term, mutually beneficial relationships with our customers. Simply put, for fabrication capabilities and/or manufacturing services not currently available in-house—rely on B&W. We have the service and expertise you're looking for, at the competitive price you need.

Proven Expertise

B&W has earned a worldwide reputation for its manufacturing, engineering and project management expertise. We have a proven track record of providing a level of service that's second to none in our industry.

Customer Focused

We make it easy to do business with us by providing a dedicated department and staff who focus on your needs. This also allows us to provide the flexible, responsive service our customers need to remain competitive.

Full Service Capabilities

Contract B&W's talent and skills on an as needed basis. We are registered to ISO 9001 and certified to ASME code and CSA quality standards, and we provide a complete range of services—all under one roof.

- design
- engineering
- fabrication
- nondestructive testing
- worldwide procurement
- project management
- inspection services
- transportation
- welding and industrial skills training

Extensive Equipment

Regardless of the project size or scope, B&W has the equipment and facilities to get the job done.

- beveling equipment
- brakes and shears
- CNC lathes and drills
- heat treatment furnaces
- machining centres
- manual and automated welding equipment
- oxy-fuel and plasma arc cutting equipment
- plate rolls
- radiographic, ultrasonic, eddy current, magnetic particle, remote visual inspection and dye penetrant testing equipment
- shot blast facility
- small and large, horizontal and vertical boring machines
- tube and pipe beveling, bending and swaging equipment
- 400-ton (plus) overhead crane capacity

Experienced Work Force

Our staff have in-depth knowledge of manufacturing and engineering processes gained through years of experience. As a result, we understand the importance of quality, cost and schedule.

B&W Manufacturing Services—The Competitive Choice

Outsourcing without the complications—that's the whole idea behind B&W's manufacturing services. We provide the benefits our customers demand to maintain their competitive edge: proven expertise in the manufacturing and engineering fields, a dedicated department, full-service capabilities, extensive equipment for virtually any scope of project, and an experienced work force to get the job done. Quick turnaround at low cost—that's the B&W advantage.
