

Regional Service Centers — Asia

*Quality Industrial & Utility Steam Plant, Environmental Systems
Lifecycle Support, Parts and Services*

Babcock & Wilcox (B&W) operates two regional service centers to serve customers throughout Asia from these locations:

- Batangas, Philippines
- Cilegon, Indonesia

A wide range of rebuild, refurbishing and inventory services is available to meet your specific needs while minimizing lead times and costs. Our service centers can provide the support you need for continued efficient and profitable plant operation.

Our service centers are supported by highly qualified design, engineering and manufacturing personnel to ensure component quality. We have experience working on repairs & maintenance, performance & reliability improvements, and upgrades on B&W OEM and non-B&W equipment.

Services and Capabilities

- Contract maintenance and outage (planned and emergency) service work
- Long- and short-term routine and preventative maintenance and outage work
- Plant inspections and assessment services
- Boiler pressure part, piping and non-pressure part fabrication; tube bending and swaging
- Component rebuilds and refurbishments including wear parts weld overlay
- Material/fabricated replacement part supply, installation and commissioning
- Onsite field engineering
- In-stock parts inventory and Assured Stock Program® inventory management
- Equipment exchange programs

Products

- Boilers — pressure parts and non-pressure parts
- Pulverizers / mills (B&W Roll Wheel® and others) — roll wheel and gearbox assemblies
- Sootblowers — engineered add-ons and upgrades for improved boiler cleaning, parts & services
- Environmental systems

Batangas, Philippines

Cilegon, Indonesia

Certification:

Philippines:

- ISO: 9001:2015
14001:2015
45001:2018

Indonesia:

- ASME: S, U & PP
- NB: R
- ISO: 9001:2015
14001:2015
45001:2018

Benefits

- Quality components at an economical value
- Component life extension for long-term operation
- Minimized lead times for scheduled and unscheduled outages
- Multi-brand capabilities
- Order consolidation for more efficient project management
